ABOUT US

We started this millennium witnessing rapid technological advancement in almost every arena of life. To cater the transforming technical needs of consumers and create innovative solutions we formally started our business operations on Dec'2011 Headquarter in Islamabad, Pakistan. Currently we are facilitating over 300+ high end consumers in 5 countries across 3 continents.

Over the years we have exclusively partnered with few most prestigious manufacturer/service providers from around the globe to promote and improve technological eco-system in Asia & Gulf region. We hold professional expertise & provide customized industrial and corporate solutions, whereas our key domains include Test & Measurement | Electronics | Communication | Networking | Software & Security.

WHY HIVE TECH?

We provide customized & efficient technical solutions by offering diverse range of world-renowned brands (products) clubbed with exceptional services from our professionals.

We are the one-stop-supplier who will cater majority of your needs while ensuring highest quality standards. We have exclusive product distribution rights for few elite brands that gives us the competitive edge in market. Our project team ensure execution as per agreed timelines & we also extend the after-sale support as per customer requirement. Moreover, we Also arrange product level training's that enable customers to handle preliminary troubleshooting without incurring additional costs. Besides we are also accessible (24/7) to our valued customer through multiple platforms for additional assistance.

ICT

As we are progressing towards creating the digital communication eco-system, we offer you the best in class resources that will support your business to communicate, create, store, disseminate & share the information. We deal in both hardware & software, whereas our major support areas are;

Passive Solutions

- Secure LAN solutions for Copper & Fiber Optic End-to-End Solutions
- LAN Indoor Copper End-to-End Solutions
- LAN Fiber-Optic End-to-End Solutions
- Data-Center Complete Solutions
- Cabinets, Racks, Enclosures & Cable Managements solutions
- Outdoor Cabling Solutions.
- Cabling Physical Layer Management Suite
- Plug & Play Pre-Terminated Cassettes:

Special Cables

- Lift Cables
- Audio, Control & Instrumentation cable
- Fire Rated cables
- Air Blown Micro & Mini FO cables.

Active solutions

- Plan, Design, and deployment of LAN/WLAN/WAN solutions
- Enterprise level Routing & Switching products for Datacenters
- Servers for all purposes Entry level workgroup to rack mount servers
- VOIP solution for small, medium and enterprise business
- Next Generation Firewall and End point security solutions
- Service Level Agreements
- IT Equipment Including:
 - Routers, Switches, Servers & Storage, Next Generation Firewalls, End Point Security, Desktop & Laptops.

Security & Surveillance

- Video Surveillance and Access Control systems
- Body temperature Detection
- Smart Security gates, Smart locks
- Video door phones, Walk through gates
- Time Attendance with Bio and Face detection technology

POWER

Covering applications from computer rooms through to large data centers and complete industrial plant protection, Hive Tech has the Uninterruptible Power Supply technology for every needs. From a few KW to applications of many MW and a wide range solutions.

Uninterruptible Power Supplier (UPS)- (500VA to 5MVA)

- Line Interactive Short Backup UPS
- Line Interactive (Pure Sine Wave) Long Backup UPS
- True Online Double Conversation UPS

Batteries (12V5Ah to 12V200Ah)

- VRLA
 - AGM
 - GEL
- Li Ion (2V Cell)

Automatic Voltage Regulator (AVR) (500VA to 2000kVA)

- Servo Motor Type
- Relay Type
- Static Type

TEST & MEASUREMENT

We offer diverse range of industrial test & measure equipment's that will enable your team to gauge the accurate performance with most updated & efficient tools available in market. Our product portfolio provides multiple options from various area including

- Exhaust Gas Analyzers
- Temperature & Humidity Measuring Instruments
- Pressure Measurement & Gas Detectors
- Earth Ground Testers, Electrical Testers
- Multimeters
- Insulation Testers & Power Quality Analyzers
- Thermal Imagers
- Access Network Test Equipment
- Fiber OTDR & Splicing Machines
- Optical power meters
- VFL (Visual fault locator)
- Analytical Equipment for Lab Solution
- Education Training Systems
- Digital Multimeters
- Electrical Testers
- HVAC/Indoor Quality Tools
- MegOhm Meters
- Process Calibration Tools
- Scope Meters
- Network Testers
- Laser Distance Meters
- Copper Cable Testers
- WiFi Testers
- Telecom Test Equipments
- Installation Testers
- Fiber Certification & Testing Portable Network Analyzers
